EXPERIENCE

Full Stack Developer

April 2025 – Present

Aman Technologies

Noida

- Integrated multiple third-party APIs including **OpenAI GPT-4**, **Google Gemini**, and video generation services with Vue.js frontend, implementing robust error handling and fallback mechanisms for seamless AI-powered workflows.
- Developed advanced campaign management features with real-time progress tracking, automated creative brief generation, and intelligent content optimization, resulting in **60% faster campaign creation workflows**.
- Developed and maintained full-stack applications using **React**, **Vue.js**, **TypeScript**, and **Scala/Spark**, building responsive UIs for desktop, tablet, and mobile with seamless cross-device compatibility.
- Collaborated in **Agile** teams to deliver **features iteratively**, while engaging **clients** for **requirements gathering** and **feedback-driven improvements**.
- Integrated **RESTful APIs** for real-time data fetching, enabling dynamic content rendering and improved user experience.

Full Stack Developer

Jan 2025 – March 2025

The SkyIt

Mumbai

- Developed the company website using **React**, **TypeScript**, and **Tailwind CSS**, creating a **responsive design** that improved visual appeal by **30%** across all devices (mobile, tablet, desktop)
- Integrated **REST APIs** with frontend components and collaborated with backend team to optimize workflows

Software Engineer

May 2024 – Dec 2024

Netgen IT Solutions

Shimla

- Developed cross-platform apps (**News App**, **Limo App**) using **Angular/Ionic** and **WordPress APIs**, boosting performance by **40%** through optimized data services and **iframes** integration.
- Built responsive booking portals (**Helicopter/Tent**) with **React**, **TypeScript** and **Material-UI**, improving UI by **30%**, while ensuring mobile/desktop compatibility.
- Engaged directly with **clients** for **requirements gathering**, **feedback implementation**, and **project updates**, ensuring **smooth delivery** and **high satisfaction**.

PROJECTS

Adgentic AI Commercial Generation Platform | *Vue.js, Node.js, MongoDB, OpenAI API* | [Live Demo](#)

- Developed full-stack AI-powered advertising platform using **Vue.js 3** and **Node.js backend with MongoDB**, enabling automated TV commercial generation and campaign management.
- Integrated **OpenAI GPT-4 APIs** for intelligent content generation, research orchestration, and creative brief automation, reducing campaign creation time by **60%** through AI-driven workflows.
- Handled **Jenkins CI/CD deployments**, environment configuration, and Java backend/UI branch deployments when DevOps resources were unavailable, ensuring continuous delivery.

Khushiyan Store | *React, Node.js, MongoDB, PhonePe, Material-UI* | [Live Site](#)

- Built full-stack e-commerce platform with **React TypeScript**, **Express.js**, and **MongoDB**, featuring responsive UI with **Material-UI**, shopping cart with local storage persistence, and comprehensive order management system.
- Implemented secure **OTP-based authentication** system with email verification, admin dashboard for order tracking, and automated **Nodemailer** integration for order confirmations and customer notifications.
- Integrated **PhonePe Payment Gateway SDK** with webhook handling for real-time payment status updates, supporting both COD and digital payment methods with proper error handling and retry mechanisms.
- Architected RESTful APIs with **20+ endpoints** including `/api/orders`, `/api/payments/phonepe`, `/api/auth/verify-otp`, etc., and deployed on **Render** with custom domain, CORS policies, MongoDB Atlas integration, and environment-based configuration for seamless production deployment.

CTV Undertone Dashboard | *Vue.js, TypeScript, HTML, CSS*

- Developed an interactive, **fully responsive** analytics dashboard using **Vue.js/TypeScript** with **10+ reusable components** for data visualization, filters, and mobile-first design.
- Integrated **multi-type charts** (line, bar, pie, horizontal) via **Chart.js** with responsive rendering for all devices.
- Implemented **REST API integration** with optimized data fetching and state management, reducing load times by **40%**.

TECHNICAL SKILLS

Languages and Technologies: C++, HTML/HTML5, CSS/CSS3, JavaScript, TypeScript

Frameworks: Angular, Vue.js, Bootstrap, Node.js, Express.js

Libraries: React, Material UI, Nodemailer, GSAP

Developer Tools: Jira, BitBucket, Visual Studio Code, Github, GitLab, Jenkins

Databases: MySQL, MongoDB Atlas

Deployment & DevOps: Render, Vercel, CI/CD Pipelines, Environment Configuration, Domain Management

Other Skills: Problem Solving, Object-Oriented Programming (OOPs), Authentication Systems, Email Integration

EDUCATION

Chitkara University <i>Bachelor of Engineering in Computer Science (CGPA: 9.4)</i>	Rajpura, Punjab <i>Aug. 2020 - Aug. 2024</i>
Modern Senior Secondary School <i>Secondary Education (12th) (78%)</i>	Patiala, Punjab <i>Apr. 2019 - Mar. 2020</i>

CERTIFICATIONS

Developing Front-End Apps with React - IBM (Coursera)
Introduction to Web Development with HTML, CSS, JavaScript - IBM (Coursera)

LANGUAGES

English: Full Professional Proficiency
Hindi: Native or Bilingual Proficiency
Punjabi: Native or Bilingual Proficiency
